APA EXPLAINED

The APA is 30% of the charter fee. This amount is transferred to our account prior to your charter. It is your money and basically, we shop for your provisions and have funds to cover running costs etc. Upon signing our charter agreement and transferring the deposit to secure your charter you will receive guest preference sheets which guide us as to what you want in regards to food, alcohol, excursions or services you may require.

The APA is strictly accounted for and the account is available for you to view at any time. Everything purchased in the APA is strictly at cost, nothing is marked up, and any alcohol or gourmet items left at the end of the trip are yours to take home. The balance either way is settled prior to departure.
